

## S&J Synergy June 2020 Newsletter

All of us here at S & J are working tirelessly to ensure that your needs are met during these unprecedented times. We are taking every precaution to ensure we are working safely.

Well done and thank you to all of our staff, especially our drivers who are out and about daily to keep us running!! We would also like to take this opportunity to thank all of our clients for supporting us in these tough times.

### Benefits of Baling

A wide variety of commercial and industrial waste can be baled ready for recycling. The benefits of waste baling include:

- Reduced waste costs
- Possible rebates on good clean materials
- Save Space – reduces bin and skip requirements by recycling your waste.
- Save the Environment – by increasing recycling and sending it further up the waste hierarchy.

Some of the materials you can bale are:

- Plastic Packaging
- Cardboard
- Film
- Rigid Plastics

Did you know we can provide information and supply balers to improve waste management on your site in all different shapes and sizes to suit your requirements.

If you have any questions please don't hesitate to contact us on 01482 221217

*S&J Synergy previously were audited by Winfibre, one of the world's largest and most successful cardboard exporters. We were proud to find that our baled products were of the correct and required quality and received the following feedback from the auditor who stated that "you are currently producing one of the best qualities of Cardboard in the UK that we have seen"*

Over the past couple of months, S & J have been very busy with new deliveries to add to our ever-growing fleet and collection of skips to continue to provide the best service possible to our new and existing clients... these are just a few of our newest additions!
