

### S&J Synergy – July 2022

#### CLIENT WEB PORTAL!

Our client Web Portal is a quick and easy way for our clients to **book in job requests** which are automatically sent to our transport and operations team! The portal is an excellent way for you to keep up to date with your waste as it allows you to **view Duty of Care documentation and Hazardous Consignment notes.**

Our Web Portal also offers **full auditability** for your waste streams, collections, and weights.

If you haven't already been set up on our Web Portal please get in touch! We are happy to set this up for you along with providing training and a user guide on how to efficiently use the portal.

#### SNEAK PEEK OF THE NEW ARRIVALS!

Due to new work opportunities and the expansion of our fleet, we are very excited to announce the highly anticipated two new tankers which are currently in production.

The welding has just been completed ready for the axle and bogie next, followed by the prominent S&J paint work.

The first tanker is due to be delivered at the end of July 2022 and we can't wait to see it in action!

Our current tankers can assist with the collections of the following:

- Effluent
- Food Waste
- Chemicals
- Dirty Water

Please get in touch for a competitive quote!

### PLASTIC FREE JULY!

Plastic Free July is a global movement that helps millions of people be part of the solution to plastic pollution so we can have cleaner streets, oceans, and beautiful communities.

This movement has inspired over 100 million participants in 190 countries!

The UK throws away an estimated 295 billion pieces of plastic waste every year! Much of this plastic is single-use and not recycled

Making a small change will collectively make a massive difference to our communities. Being part of Plastic Free July will help you to find great alternatives that can become new habits forever!

#### Get involved:

- Incorporating signage into your business is a great way to communicate the issues with staff and reinforce your company's values.
- Spread the word on social media and tag @plasticfreejuly
- Compile an inventory of the single use plastic items in your company and explore alternatives.
- Encourage reusable coffee cups and water bottles.
- FREE site audit – contact us and we will come to site and advise you of the most cost effective and environmentally friendly way to get rid of your waste.

### WE ARE HIRING!

As the business continues to grow, we are looking to expand our team even further by adding some new additions to support the team here at S&J Headquarters!

We have opportunities available for Admin Apprentices, Admin Support Workers & a range of office support roles available! We can't wait to welcome some new colleagues to the team! Watch this space!
