S & J Synergy Services

Looking forward to 2023??

S&J Synergy offer a wide range of different services and solutions which could benefit and help your business get on top of its waste management!

FACILITIES MANAGEMENT

When it comes to Facility Management, S & J can offer a large variety of services, including;

- On site technical and labour support
- Office cleaning
- Waste Recycling Operatives
- Waste management and recycling programmes

AND MORE!

WEEE

There are many different types of waste that come under WEEE Waste;

- Fridges
- TVs/Monitors
- IT Equipment
- Hi-Fi Systems/Speakers
- Hoovers

The list just goes on, but S & J can help with the disposal of it all. As well as providing the correct hazardous documentation.

TRAINING

We can provide your business and employees with training to help improve the daily functions and process of recycling and waste management. We have gained a wealth of experience within the waste sector meaning we can offer advance training sessions to help further your knowledge and legal compliance.

HAZARDOUS WASTE

We can help with a quick, safe and easy process that is 100% compliant with all current legislation. We can advise you on all your legal requirements and provide you with the support you need to ensure your hazardous waste is disposed of correctly. We also deal with; Asbestos, Oils, Batteries, Pesticides, Solvents and Chemicals, e.g. Print toner etc.

SKIP HIRE

Our skips range from 8 Yard to 40 Yard, which means we can offer a range of different skips for all your recycling needs. We can advise which skip we would recommend for different waste types. We can offer enclosed skips and bespoke skips for difficult products.

SITE AND PRODUCT AUDITS

S & J have gained the knowledge and experience over the years to be able to offer indepth and accurate site, environmental and product audits. We can advise on how to improve product segregation and bulking on site, and also make sure your current waste process' are compliant with the most up to date legislation.
